Foreword

This is the fifth edition of the Progress in Australian Regions – Yearbook.

This edition provides updated information on previous Yearbooks (where available), to provide a consistent measure of progress in Australia’s regions over time.

This data will be available on both the Australian Government data site (data.gov.au) and the Bureau of Infrastructure, Transport and Regional Economics website (bitre.gov.au), to provide easy access – including data by Local Government Areas (LGA). We anticipate this will be a useful tool for those analysing change at a range of geographic scales.

We trust that this edition continues to be of value to regional stakeholders around the country.

Gary Dolman
Head of Bureau
