## FOREWORD

This report provides an overview of domestic (including charter) commercial aviation activity in Australia for the month of July 2018.

The data cover revenue passengers carried by Australian-registered operators of scheduled regular public transport services over Australian flight stages and fixed-wing charter operators. These estimates include passengers carried between domestic airports on international flights operated by these carriers. The passengers carried refer to traffic on board by stages.

Estimates of passengers and aircraft movements for charter aviation are included in this publication, where BITRE confidentiality standards are met.

Individual routes shown are restricted to those with an average exceeding 8 000 passengers per month over the previous six months where two or more airlines operate in competition. For the month of July 2018, there were 66 such routes.

Information on the total network for the month of July 2018 and on the Regular Public Transport (RPT) network for the month of July 2018 is presented on page 2, with estimates for the year ended July 2018 presented on page 3.

Detailed information on the 66 individual routes can be found in the RPT summary pages 4-13 of this publication.

The top ten airports in terms of RPT passenger movements are shown on page 14.

Data on domestic RPT cargo movements at the top five cargo airports are provided on page 15. The table includes cargo carried on passenger flights operated by the Qantas group (including Jetstar), Virgin Australia, Air North and Skippers as well as the cargo carried by dedicated freighter aircraft operated by Qantas Freight, Toll Priority and Virgin Australia Cargo.

The long-term trends for the top ten competitive RPT routes are presented graphically on pages 16-25.

Domestic RPT passenger movements at the top 50 regional airports are presented on pages 26-27.

Tables providing estimates of domestic charter aviation activity are shown on page 28. BITRE confidentiality standards restrict publication of detailed estimates for individual Australian airports, with the exception of Perth Airport.

A list of definitions can be found on page 29.

This report was prepared by the Aviation Statistics Section of the Bureau of Infrastructure, Transport and Regional Economics with data provided by airlines.

Estimates are included where data were not available and data presented in this publication may contain revisions to previously published data.

Where figures have been rounded, discrepancies may occur between sums of component items and totals, and in percentage changes which are derived from figures prior to rounding.

## HIGHLIGHTS

There were 5.65 million passengers carried on Australian domestic commercial aviation (including charter operations) in July 2018, an increase of 2.7 per cent on July 2017. For the month of July 2018 there were 58 034 aircraft trips, a decrease of 1.5 per cent compared to July 2017.

5.44 million passengers were carried on RPT flights in July 2018, an increase of 2.6 per cent on July 2017.

For the year ending July 2018 there were 60.90 million RPT passengers, an increase of 2.5 per cent on the year ending July 2017.

RPT revenue passenger kilometres (RPKs) performed were 6.50 billion for the month, up 2.6 per cent compared with July 2017. Capacity, measured by available seat kilometres (ASKs), increased by 1.4 per cent compared with July 2017 to a total of 7.81 billion.

With RPT passenger traffic increasing at faster rate than capacity, the industry wide load factor (RPKs/ASKs) increased from 82.2 per cent in July 2017 to 83.2 per cent in July 2018. Load factors on individual routes increased on 41 of the 64 RPT routes for which data is available for publishing in both years.

For the month of July 2018, Melbourne – Sydney remained Australia's busiest RPT route with 774 864 passengers, an increase of 0.4 per cent compared with July 2017. It was followed by Brisbane – Sydney with 435 197 passengers (up 2.5 per cent) and Brisbane – Melbourne with 336 225 passengers (up 3.5 per cent).

The greatest percentage increase in RPT passenger numbers, compared to July 2017, was on the Kalgoorlie – Perth route (up 23.1 per cent). There were large increases on a number of other routes, including Hamilton Island – Sydney (up 20.8 per cent), Brisbane – Mackay (up 18.0 per cent) and Newman – Perth (up 16.3 per cent).

Routes with traffic decreases in July 2018 compared with July 2017 included Brisbane – Proserpine (down 11.7 per cent), Brisbane – Rockhampton (down 10.5 per cent) and Brisbane – Bundaberg (down 8.9 per cent).

In July 2018, Sydney remained Australia's busiest domestic airport with 2.41 million passenger movements, followed by Melbourne with 2.28 million passenger movements and Brisbane with 1.60 million passenger movements.

Total cargo movements at Australian airports on domestic RPT flights were 39.5 thousand tonnes in July 2018, an increase of 7.9 per cent compared with July 2017.

In July 2018, there were 2.29 million domestic passenger movements through regional airports, 3.2 per cent higher than in July 2017. Out of the top 50 regional airports, the strongest growth was at Whyalla airport (up 29.6 per cent on July 2017), while the largest decrease was at Moranbah airport (down 16.0 per cent on July 2017).

Fixed-wing charter operators carried 210.5 thousand passengers in July 2018, an increase of 5.6 per cent on July 2017. Perth airport accounted for 37.8 per cent of all charter passengers in Australia.

## DOMESTIC CHARTER ACTIVITY

**Table 12: Charter passengers carried and aircraft trips - annual activity**

	YE Jul 2017	YE Jul 2018	% Change
Total domestic charter passengers	2 404 040	2 445 119	1.7
Total domestic charter aircraft trips	44 941	44 956	0.0

Note: Helicopter, joyflights and sightseeing charter flights not included.

**Table 13: Charter passengers carried and aircraft trips - monthly activity**

	Jul 2017	Jul 2018	% Change
Total domestic charter passengers	199 373	210 469	5.6
Total domestic charter aircraft trips	3 833	3 714	-3.1

Note: Helicopter, joyflights and sightseeing charter flights not included.

**Table 14: Domestic airports - charter activity - annual**

	YE Jul 2017	YE Jul 2018	% Change
Total domestic charter passenger movements	4 808 080	4 890 238	1.7
Total domestic charter aircraft movements	89 882	89 912	0.0
Perth airport charter passenger movements	1 857 708	1 835 606	-1.2
Perth airport charter aircraft movements	31 476	30 006	-4.7

Note: Helicopter, joyflights and sightseeing charter flights not included.

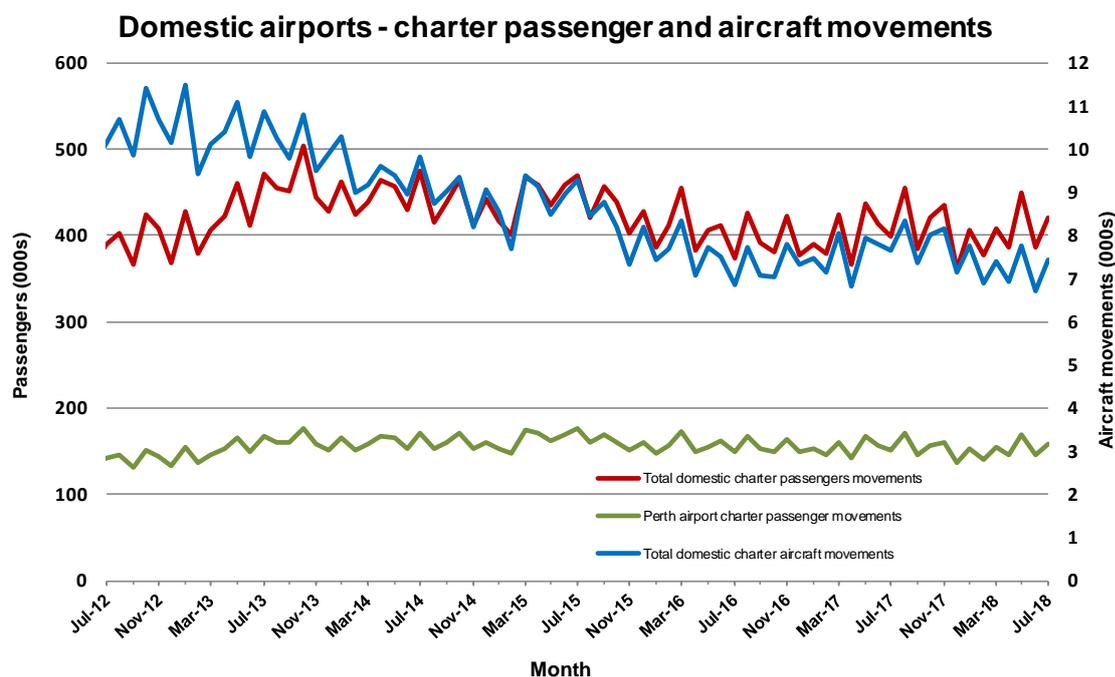

Charter passenger and aircraft movement numbers are the sum of arrivals and departures at each airport.

**Table 15: Domestic airports - charter activity - monthly**

	Jul 2017	Jul 2018	% Change
Total domestic charter passenger movements	398 746	420 938	5.6
Total domestic charter aircraft movements	7 666	7 428	-3.1
Perth airport charter passenger movements	151 601	159 233	5.0
Perth airport charter aircraft movements	2 572	2 517	-2.1

Note: Helicopter, joyflights and sightseeing charter flights not included.

Charter passenger and aircraft movement numbers are the sum of arrivals and departures at each airport.

## DEFINITIONS

Aircraft Trips	The number of flight stages. A return flight counts as two aircraft trips.
Airport Movements	Airport movements (passenger and cargo) are measured once on arrival and once on departure. Each domestic trip generates two movements at airports. For example, a trip from Melbourne to Sydney will be counted twice, as a passenger departure at Melbourne and as a passenger arrival at Sydney. At the national level, the sum of all domestic airport traffic will therefore be equal to twice the number of trips undertaken.
Available Seat Kilometres (ASKs)	Calculated by multiplying the number of seats available on each flight stage, by the distance in kilometres between the ports. The distances used are Great Circle Distances.
City-Pair	The ports shown make up the city-pair route. Passenger movements shown for a city pair reflect total traffic in both directions.
Flight Stage	The operation of an aircraft from take-off to landing.
Load Factor	The total revenue passenger kilometres performed as a percentage of the total available seat kilometres.
Passengers Carried	Revenue passengers carried.
Regular Public Transport Services (RPT)	All air service operations in which aircraft are available for the transport of members of the public and are conducted in accordance with fixed schedules. It does not include charter or other non-scheduled operations.
Revenue Passengers	All passengers paying any fare. Frequent flyer redemption travellers are regarded as revenue passengers.
Revenue Passenger Kilometres (RPKs)	Calculated by multiplying the number of revenue passengers travelling on each flight stage, by the distance in kilometres between the ports. The distances used are Great Circle Distances.
Traffic on board by stages	The total of all traffic (revenue passengers) on each flight stage between two directly connected airports.
