STATISTICAL REPORT

Aviation

**International airline activity
January 2024**

The Department of Infrastructure, Transport, Regional Development, Communications and the Arts acknowledges the Traditional Custodians of Country of the land on which we work and live.

We recognise and respect the continuing connections to land, waters and communities.

We pay our respects to them and their cultures and to their Elders both past and present and to all Aboriginal and Torres Strait Islander people.

4. Australian International Airport Scheduled Traffic and Aircraft Movements	15-16
5. Scheduled International Passengers and Freight by City Pairs	17-22
Year ended summary figures.....	23-25
Explanatory Notes	26-27
Data Issues and Notes on Airline Services	28

HIGHLIGHTS – JANUARY 2024

- Sixty international airlines operated scheduled services to/from Australia during the month (includes four dedicated freight airlines but excludes airlines operating only via code share arrangements).
- International scheduled passenger traffic in January 2024 was 3.803 million. Passenger traffic was 2.961 million in January 2023 and 442,275 in January 2022. While international traffic is recovering from the COVID-19 pandemic, it has not yet reached its pre-pandemic highest record level of 4.154 million passengers in January 2020.
- Passenger traffic for the year ended January 2024 was 36.619 million. It was 21.597 million for the year ended January 2023 and was 1.930 million for the year ended January 2022.
- Total seats made available on international scheduled operations to/from Australia during January 2024 were 4.768 million – an increase of 35.4 per cent compared to January 2023. The overall seat utilisation percentage was 81.5 per cent in January 2024. It was 46.2 per cent in January 2022 and 86.5 per cent in January 2023.
- In terms of passenger carriage, Qantas Airways had the largest share of the market in January 2024 with 16.2 per cent of the total followed by Jetstar with 10.3 per cent, Singapore Airlines with 8.5 per cent, Air New Zealand with 7.3 per cent and Emirates with 5.7 per cent.
- The Qantas group – Qantas Airways and Jetstar accounted for 26.6 per cent of total passenger carriage in January 2024. The group's share was 27.0 per cent in January 2023 and 19.2 per cent in January 2022.
- Australian designated airlines – Qantas Airways, Jetstar and Virgin Australia (3.4 per cent) accounted for 30.0 per cent of total passenger carriage in January 2024. Their share was 30.4 per cent in January 2023 and 20.4 per cent in January 2022.
- Low Cost Carriers (LCCs) AirAsia X, Cebu Pacific Air, Citilink Indonesia, Indonesia AirAsia, Jetstar, Scoot Tigerair, Thai AirAsia X, T'Way Air and Vietjet Air accounted for 19.6 per cent of total international passenger traffic to/from Australia in January 2024. The Low Cost Carriers' share in January 2023 was 18.9 per cent and 5.2 per cent in January 2022.
- International scheduled freight traffic in January 2024 increased by 29.4 per cent over January 2023 to 87,319 tonnes. Inbound freight traffic increased by 26.0 per cent and outbound freight traffic increased by 33.0 per cent compared to January 2023.

Please refer to explanatory notes - paragraphs 4, 5, and 7 in particular.

Seat Factors shown in this table:

Traffic shown in this table for AirAsia X, China Airlines, China Eastern Airlines, Emirates, Malindo Air and Qantas Airways may differ from traffic shown in Tables 1 and 2 because of the inclusion in this table of total traffic into and ex Australia (for seat factor purposes) whereas Tables 1 and 2 include uplift/discharge traffic only. All other airlines report uplift/discharge traffic only. Currently, there are no other airlines operating via Australia, and therefore uplift/discharge traffic is the same as total traffic into and ex Australia for all other airlines.

(a) Freight flights only.

ALL AIRPORTS	5,215,625	1,930,164	21,597,482	36,619,229	69.6%

(a) Scheduled passenger services recommenced April 2021.

(b) Scheduled services recommenced July 2023.

(c) Seasonal services only.

(d) Scheduled services recommenced September 2022.

(e) No scheduled passenger services after March 2020.

Operations at several airports have been suspended during COVID-19

EXPLANATORY NOTES

INTRODUCTION

1. This publication continues the series of monthly publications presenting provisional statistical information on the scheduled operations of international airlines operating into/out of Australia.
2. The figures in this publication were obtained from reports submitted by scheduled international carriers and are the best available at the time of publication.

COVERAGE

3. These statistics show uplift/discharge data – These data detail, by direction, the revenue traffic between the actual points of uplift and discharge within each flight, aggregated for all flights within the period. It shows the movement of traffic between two airports not necessarily directly connected but within the same flight number. Typically, flight numbers change when an aircraft reaches its home country. This means that uplift/discharge data for the port in the operator's home country are likely to be overstated by traffic whose origin/destination point is beyond that port. For example, uplift/discharge traffic reported in this publication as Singapore could include traffic whose origin/destination is Europe.
4. These statistics cover revenue traffic carried by the operators of scheduled regular public international air transport services only and do not include charter traffic.
5. Flights with no revenue traffic uplifted from Australia or discharged in Australia are treated as positioning flights and are not included in this data collection. This mainly affects dedicated freighter flights where some flights outbound from Australia do not pick up freight in Australia.

PRODUCTION AND INTERPRETATION

6. Tables 1 and 2 show the country of the relevant uplift or discharge port served by that airline. For example, traffic uplifted/discharged between Sydney and Singapore by British Airways would be shown as Singapore traffic in Tables 1 and 2.
7. Table 3 shows figures for the country of service (or route) for each airline and therefore may not equate to the data in Tables 1 and 2. For example, the British Airways UK service identified in Table 3 could include passengers uplifted or discharged in Singapore as well as the UK; these passengers would be shown individually under those countries in Tables 1 and 2. The difference in treatment of data between Tables 1 and 2 and Table 3 is necessary in order to work out a meaningful Seat Utilisation figure for Table 3.

Figures shown in Table 3 may include total traffic into and out of Australia for airlines that fly through Australia (also necessary in order to work out a meaningful Seat Utilisation figure). Therefore, figures in Table 3 may not equate to figures in Tables 1 and 2. For example, passengers carried by Qantas Airways from New Zealand via Australia to the UK will be included in Table 3 but will not be included in Tables 1 or 2 as these passengers were not uplifted/discharged in Australia.

8. Table 5 – shows uplift/discharge passenger and freight data for city pairs with “same flight number” international flight connections.

9. Where figures have been rounded, discrepancies may occur between sums of component items and totals, and in percentage changes which are derived from figures prior to rounding.
10. Published figures may be revised where figures missing at the time of publication are received or misreporting/miscalculation necessitates revisions.

DEFINITIONS

11. The following definitions have been used in this publication:
 - (a) Aircraft Movement: A landing or a take off.
 - (b) Freight: The aggregate of all revenue freight uplifted or discharged in Australia.
 - (c) Inbound: Inbound to Australia/Australian international airport.
 - (d) Mail: The aggregate of all mail uplifted or discharged in Australia.
 - (e) Outbound: Outbound from Australia/Australian international airport.
 - (f) Revenue Passengers: All passengers paying any fare (frequent flyer redemption passengers are regarded as revenue passengers). In most cases, Revenue Passengers includes all passengers excluding Free Of Charge passengers and positioning crew.
 - (g) Seat Utilisation: The ratio of passengers carried to seats available, expressed as a percentage.
 - (h) Seats Available: Generally based on standard aircraft configuration, the aggregate of seats available on all flights operated over a particular service.
 - (i) Services: Scheduled flights over authorised routes which are listed according to the main ports involved.

SYMBOLS AND OTHER USAGE

- nil or zero
- .. not applicable

DATA ISSUES

Seat utilisation: Available seats have not been counted where passenger aircraft have been used to operate freight only services. However, this adjustment cannot be made for airlines that report monthly aggregates and that have operated a mix of passenger and freight only services using passenger aircraft.

NOTES ON AIRLINE SERVICES

There were no significant changes to services during January 2024.
