# Foreword

The Bureau of Infrastructure and Transport Research Economics (BITRE) monitors the punctuality and reliability of major domestic airlines operating between Australian airports. The purpose of this is to allow for evaluation of overall industry and individual airline performance, so that consumers of air travel can make informed decisions.

Total industry figures encompass all services operated by reporting airlines only. These airlines collectively carried over 98 per cent of total domestic passengers (regular public transport only) in 2022.

The following domestic airlines currently report this information monthly to the BITRE: Jetstar, Qantas, QantasLink, Rex Airlines, Virgin Australia and Virgin Australia Regional Airlines.

Information presented in this report is for Australian domestic routes with load averaged 8,000 or more passengers per month over the previous six months, with two or more airlines operating in competition on those routes. Data for 61 routes which operated for at least part of the 2022 calendar year are presented. Over time, routes which meet these criteria change as airline networks and traffic levels vary.

The method of capturing on-time performance varies between airlines, utilising different recording systems. Jetstar and Qantas jet aircraft use Aircraft Communication Addressing and Reporting System (ACARS) to electronically measure OTP. Rex Airlines, Virgin Australia, Virgin Australia Regional Airlines and the Qantas non-jet fleet use records from pilots, gate agents and/or ground crews to manually record OTP.

After initial data is collected, aggregate reports are reviewed by participating airlines prior to publication.

Reports and detailed time series data in Microsoft Excel spreadsheet format are available from the BITRE website at: <http://www.bitre.gov.au/statistics/aviation/otphome.aspx>

The cancellation rate for the year was 4.7 per cent. The equivalent figures for 2021 were 86.2 per cent for on-time arrivals, 85.9 per cent for on-time departures and 10.6 per cent for cancellations. Airlines' on-time performance varies across the routes they serve. Individual route data by specific airline for 61 routes are shown on pages 9-22.

The 2022 on-time arrivals figure was lower than the long-term average performance for all routes (81.6 per cent) and the on-time departures figure was also lower than the long-term average (82.8 per cent). The rate of cancellations was higher than the long-term average of 2.1 per cent.

## Individual routes

On time performance is reported for all routes where the passenger load averages over 8,000 passengers per month over the previous six months, and where two or more airlines operate in competition on those routes. In order to present data for more routes during the period impacted by COVID-19, the passenger load restriction is not being applied. There are now 61 routes for which data are presented.
