FOREWORD

This report provides an overview of domestic (including charter) commercial aviation activity in Australia for the year ending June 2021.

The data cover revenue passengers carried by Australian-registered operators of scheduled regular public transport services over Australian flight stages and fixed-wing charter operators. These estimates include passengers carried between domestic airports on international flights operated by these carriers. The passengers carried refer to traffic on board by stages.

Estimates of passengers and aircraft movements for charter aviation are included in this publication, where BITRE confidentiality standards are met.

Individual routes shown are restricted to those exceeding 8 000 passengers per month where two or more airlines operate in competition. For the year ending June 2021 there were 53 such routes.

Information on both the total network and the Regular Public Transport (RPT) network for the year ending June 2021 is presented on page 2.

Detailed information on the 53 individual routes can be found in the RPT summary pages 3–10 of this publication.

The top ten airports in terms of RPT passenger movements are shown on page 11.

Data on domestic RPT cargo movements at the top five cargo airports are provided on page 12. The table includes cargo carried on passenger flights operated by the Qantas group (including Jetstar), Virgin Australia, Air North and Skippers as well as the cargo carried by dedicated freighter aircraft operated by Qantas Freight and Toll.

The long-term trends for the top twenty competitive RPT routes are presented graphically on pages 13–22.

Domestic RPT passenger movements at the top 50 regional airports are presented on page 23.

Tables providing estimates of domestic charter aviation activity are shown on page 24. BITRE confidentiality standards restrict publication of detailed airport-level estimates for any Australian airport, with the exception of Perth Airport.

A list of definitions can be found on page 25.

This report was prepared by the Aviation Statistics Section of the Bureau of Infrastructure and Transport Research Economics with data provided by airlines.

Estimates are included where data were not available and data presented in this publication may contain revisions to previously published data.

Where figures have been rounded, discrepancies may occur between sums of component items and totals, and in percentage changes which are derived from figures prior to rounding.

HIGHLIGHTS

Travel restrictions due to the COVID-19 outbreaks have resulted in severe disruptions to domestic travel since April 2020.

There were 24.98 million passengers carried on Australian domestic commercial aviation (including charter operations) in the year ending June 2021, a decrease of 48.0 per cent compared with the year ending June 2020. In the year ending June 2021 there were 393.7 thousand aircraft trips, a decrease of 27.9 per cent compared to the previous year.

21.55 million passengers were carried on RPT flights in the year ending June 2021, a decrease of 52.4 per cent compared with the year ending June 2020.

RPT revenue passenger kilometres (RPKs) performed were 24.74 billion, a decrease of 53.1 per cent compared with the year ending June 2020.

Capacity, measured by available seat kilometres (ASKs), decreased by 42.1 per cent compared with the year ending June 2020, to a total of 38.57 billion.

The industry wide load factor (RPKs/ASKs) decreased from 79.3 per cent in the year ending June 2020 to 64.1 per cent in the year ending June 2021. The highest load factor in the year ending June 2021 was on Brisbane – Proserpine (77.3 per cent) while the lowest was on Newman – Perth (46.2 per cent). Load factors on individual routes decreased on 34 of the 35 published routes for which data is available in both years.

In the year ending June 2021, most published routes recorded decreases in the number of passengers carried compared with year ending June 2020.

For the year ending June 2021, Melbourne – Sydney remained Australia's busiest RPT route with 1.73 million passengers, a decrease of 73.8 per cent compared with the previous financial year. It was followed by Brisbane – Sydney with 1.24 million passengers (down 65.0 per cent) and Brisbane – Cairns with 947.2 thousand passengers (down 1.5 per cent).

In the year ending June 2021, Brisbane was Australia's busiest domestic airport with 7.31 million passenger movements, down 44.2 per cent compared with the year ending June 2020, followed by Sydney with 7.26 million passenger movements (down 63.9 per cent) and Melbourne with 5.89 million passenger movements (down 69.0 per cent).

Total cargo movements at Australian airports on domestic RPT flights were 395.6 thousand tonnes in the year ending June 2021, a decrease of 7.2 per cent compared to the year ending June 2020.

In the year ending June 2021, the number of domestic aviation passengers travelling through regional airports was 13.00 million, 30.4 per cent lower than for the year ending June 2020. Most published regional airports recorded decreases compared with the year ending June 2020.

Fixed-wing charter operators carried 3.44 million passengers in the year ending June 2021, an increase of 22.6 per cent compared with the year ending June 2020. Perth airport accounted for 37.7 per cent of all charter passengers in Australia.

TOTAL NETWORK

Summary of annual commercial aviation activity

	YE Jun 2020	YE Jun 2021	% Change
Total passengers carried (millions)	48.04	24.98	-48.0
Aircraft trips (000s)	545.9	393.7	-27.9

Note: Regular Public Transport and charter aviation activity, Helicopter, joyflights and sightseeing charter flights not included.

RPT NETWORK

Total regional airports	18 669.6	12 994.4	-30.4
Total domestic network	45 242.7	21 545.4	-52.4

Note: Airport passenger movement numbers are the sum of passenger arrivals and departures at each airport.

Regional airports are defined as airports which are, according to the Australian Bureau of Statistics

"The Australian Statistical Geography Standard (ASGS)", not based in Major Urban areas.

DOMESTIC CHARTER ACTIVITY

Table 8: Charter passengers carried and aircraft trips - annual activity

	YE Jun 2020	YE Jun 2021	% Change
Total domestic charter passengers	2 802 044	3 436 194	22.6
Total domestic charter aircraft trips	54 022	67 172	24.3

Note: Helicopter, joyflights and sightseeing charter flights not included.

Table 9: Domestic airports - charter activity - annual activity

	YE Jun 2020	YE Jun 2021	% Change
Total domestic charter passenger movements	5 604 088	6 872 388	22.6
Total domestic charter aircraft movements	108 044	134 344	24.3
Perth airport charter passenger movements	2 151 765	2 588 368	20.3
Perth airport charter aircraft movements	37 702	44 285	17.5

Note: Helicopter, joyflights and sightseeing charter flights not included.

Charter passenger and aircraft movement numbers are the sum of arrivals and departures at each airport.

DEFINITIONS

Aircraft Trips	The number of flight stages. A return flight counts as two aircraft trips.
Airport Movements	Airport movements (passenger and cargo) are measured once on arrival and once on departure. Each domestic trip generates two movements at airports. For example, a trip from Melbourne to Sydney will be counted twice, as a departure at Melbourne and as an arrival at Sydney. At the national level, the sum of all domestic airport traffic will therefore be equal to twice the number of trips undertaken.
Available Seat Kilometres (ASKs)	Calculated by multiplying the number of seats available on each flight stage, by the distance in kilometres between the ports. The distances used are Great Circle Distances.
City-Pair	The ports shown make up the city-pair route. Passenger movements shown for a city pair reflect total traffic in both directions.
Flight Stage	The operation of an aircraft from take-off to landing.
Load Factor	The total revenue passenger kilometres performed as a percentage of the total available seat kilometres.
Passengers Carried	Revenue passengers carried.
Regular Public Transport Services (RPT)	All air service operations in which aircraft are available for the transport of members of the public and are conducted in accordance with fixed schedules. It does not include charter or other non-scheduled operations.
Revenue Passengers	All passengers paying any fare. Frequent flyer redemption travellers are regarded as revenue passengers.
Revenue Passenger Kilometres (RPKs)	Calculated by multiplying the number of revenue passengers travelling on each flight stage, by the distance in kilometres between the ports. The distances used are Great Circle Distances.
Traffic on board by stages	The total of all traffic (revenue passengers) on each flight stage between two directly connected airports.
..	Not available for confidentiality or other reasons.
NA	Not applicable.
